skillahead

COMPANY PROFILE

Better reports.
Faster decisions.

Corporate training and consultancy in business intelligence, analysis and reporting for organisations in Nigeria.

Abuja · Port Harcourt · Lagos

www.skillahead.ng

Who we are

Skillahead Systems Ltd helps organisations turn the data they already have into clear reports and confident decisions. We train executives, managers and their teams to build reliable dashboards and management reports, and we help organisations set up reporting systems that do not depend on one person.

Skillahead Systems Ltd (RC 9266290) is the corporate training and consultancy arm of the Skillahead group, whose Data Analytics course has carried Institute of Analytics (UK) endorsement since December 2024.

OUR MISSION
To equip Nigerian organisations with the business intelligence skills and reporting systems they need to make faster, better decisions.

OUR VISION
To be Africa's most trusted partner for business intelligence and reporting capability.

The problem we solve

Reports arrive late
Month-end figures come weeks after decisions are needed.

Numbers don't agree
Finance, sales and operations each report different figures.

Decisions wait on data
Leaders depend on one person to pull the numbers.
